

## **Moonlight**

Here's to the love of my life  
We'll dance together under Moonlight  
And we'll share this same dance for the rest of our life  
It'll be some life

You spread on your big toenail, a light blue polish  
I touch the back of your toes and you laugh at me so

Well come on and laugh with me  
We'll laugh all night, Under Moonlight

*CHORUS*  
Under Moonlight

When I kissed you, you became my wife  
When I first met you I thought your eyes were so nice  
On this front porch we will sit and sigh as if this were the first time  
We had ever been Under Moonlight

*CHORUS*  
Under Moonlight

*BRIDGE*  
I saw you standing alone  
Without a Dream in your heart  
I saw you standing alone  
Without a love of your own

*CHORUS*  
Under Moonlight
