

## Short Time

### Verse 1

Voices of Yesterday Have Come for me Here  
The Hidden Reminders keeps my faith real  
It's finding a lost sound of a Piano and a Friend  
That was the melody that I meant to sing

### Verse 2

Changing Our lives and Changing Our Minds  
And When we are done, here we all will remain  
Time that keeps on we're fighting time  
And coming to a place where we all have been  
It's just like you, you are my dream

### *Bridge*

You cannot say this is all, the ending is far away  
And in a short time we come back to yesterday

### Verse 3

These endless reunions give us the peace to endure  
As these years fade together, our own worlds grow apart  
Looking back to the meteors, they showered us in awe  
We were the heroes of the hour, still believers in our hearts

### Verse 4

Take me Back to read with you  
In the company of our youth  
Every hour that I think I've lost  
Greets me when I return

### *Bridge*

I cannot say this is all, the ending is far away  
And in a short time we come back to Yesterday
